Tom 190–Tom 195, 1970

Vol. 11, Nos. 1–6 January–December 1970 Pages 1–1688

ANNUAL INDEX OF AUTHORS

Abdukadyrov, È. *On the Green's function of the Sturm-Liouville equation with operator-valued coefficients* 1482

Adjan, S. I. *Infinite irreducible systems of group identities* 113

Al'ber, Ja. I. *The solution of nonlinear operator equations by methods of steepest descent type* 887

Aleksandrov, A. D. *Mappings of families of sets* 116

Mappings of families of sets 376

Aleksidze, M. A. *On a method of inverting symmetric matrices* 381

Alimov, Š. A. (see also Il'in, V. A.)

On the expansion of a function from the class $B^{\alpha}_{p,\theta}$ *in a Fourier series of functions from an arbitrary fundamental system for a Laplacian operator* 1137

Alimov, Š. A. and Il'in, V. A. *On spectral decompositions corresponding to an arbitrary non-negative selfadjoint extension of the Laplace operator* 825

Amstislavskiĭ, V. I. *On the decomposition of a field of sets obtained by an R-operation over recursive sets* 419

Anisimov, V. V. *Limit theorems for semi-Markov processes with a countable set of states* 945

Limit distributions of functionals of a semi-Markov process given on a fixed set of states, up to the time of first exit 1002

Antonevič, A. B. *On the index of a pseudodifferential operator with a finite group of shifts* .. 168

Arhangel'skiĭ, A. V. *A theorem on the representation of a homeomorphism modulo sets of first category* 1

The Suslin number and cardinality. Characters of points in sequential bicompacta 597

Arlazarov, V. L.; Dinic, E. A.; Kronrod, M. A. and Faradžev, I. A. *On economical construction of the transitive closure of an oriented graph* 1209

Arnautov, V. I. *Nondiscrete topologizability of countable rings* 423

Nondiscrete topologizability of infinite commutative rings 1307

Arsen'ev, A. A. *The behavior of the energy of the solution of the wave equation in an unbounded region for large values of the time* 1084

Arsen'ev, A. A. and Il'in, V. A. *A mean value formula for fundamental functions of the Beltrami operator and precise estimate of the sums of squares of fundamental functions* 264

Atanbaev, S. A. See Marčuk, G. I.

Avhadiev, F. G. *On sufficient conditions for univalence of solutions of inverse boundary value problems* 109

Azbelev, N. V.; Berdnikova, M. P. and Rahmatullina, L. F. *Integral equations with deviating argument* 643

Babaev, M.-B. A. *Approximation of polynomials in two variables by functions of the form* $\phi(x) + \psi(y)$ 1034

Babenko, K. I. *A contribution to the theory of the second variation of functionals on the class S of univalent functions* 1037

Some aspects of the theory of extremal problems for univalent functions of class S 1141

On the structure of the coefficient-domain for univalent functions of class S 1170

Bagirov, L. A. *Boundary value problems for elliptic and parabolic equations in unbounded domains* 385

Barkovskiĭ, V. V. *Mixed boundary problems of general type, nonstationary on a part of the boundary* 1391

Barzdin′, Ja. M. *On the relative frequency of solution of algorithmically unsolvable mass problems* 459

Bavrin, I. I. *The structural representation of certain classes of harmonic and analytic functions* 1005

On generalization of the integral formulas of Cauchy, Schwarz and Poisson 1174

Begovatov, E. A. *Schrödinger's equation in Hilbert space* 503

Belickiĭ, G. R. *On local conjugacy of diffeomorphisms* 390

Bel′nov, V. K. *On condensations onto compacta* 949

Belobrov, P. K. *On the Čebyšev point of a system of planes in Banach space* 507

Beniaminov, E. M. *Deheuvels homology of metric compacta* 1487

Berdnikova, M. P. See Azbelev, N. V.

Berkolaĭko, M. Z. and Rutickiĭ, Ja. B. *On the operators in Hölder spaces* 787

Berkovič, E. M. See Budak, B. M.

Berman, D. L. *Extended Hermite-Fejér interpolation processes diverging everywhere* 830

Bernšteĭn, I. N.; Gel′fand, I. M. and Gel′fand, S. I. *Differential operators on a base affine space* 1646

Beršteĭn, A. A. *On necessary and sufficient conditions for the occurrence of Markov spectrum points in the Lagrange spectrum* 463

Bibikov, Ju. N. *On the stability of periodic motions in the transcendental case with two purely imaginary characteristic exponents* 121

Bikjalis, A. *Investigations on multidimensional limit theorems of the theory of probability* ... 467

Birger, E. S. *The nonselfadjoint operator* $-y'' + p(x)y$ *on the axis* $(-\infty, \infty)$ 692

Bonami, A. A. *On conjugate harmonic functions of several variables* 695

Bondareva, O. *A theorem on externally stable sets* 602

Borovkov, A. A. *Ergodic theorems for multichannel service systems* 1265

Bovdi, A. A. and Mihovski, S. V. *Indempotents in crossed products* 1439

Brandt, I. S. *Surfaces of negative curvature in Riemannian space with nonpositive Riemannian curvature* 1270

Bratus′, A. S. *A priori estimates for equations with a parameter* 790

Bredihina, E. A. *Best possible criteria for the convergence of Fourier series of almost periodic functions* 1211

Brodskiĭ, V. M. *Triangular representation of nearly unitary operators and multiplicative decomposition of their characteristic functions* 126

Brudnyĭ, Ju. A. *Spaces definable by variation of local approximations* 171

Brudnyĭ, Ju. A. *Approximation of functions defined in a convex polyhedron* 1587
Budak, B. M. and Berkovič, E. M. *On approximation of extremal problems* 740
Budak, B. M. and Moskal, M. Z. *On a classical solution of a multidimensional multiphase Stefan type problem in a domain with piecewise smooth boundary* 427
Bulanov, A. P. *The best rational approximation of convex functions and functions of bounded variation* 5
Burd, V. Š. and Kolesov, Ju. S. *On the dichotomy of solutions of functional-differential equations with almost-periodic coefficients* 1650
Čarušnikov, V. D. *On universally optimal cubature formulas* 456
On optimization of methods of solution of some problems in approximation theory 993
On universally optimal iterative processes 1431
Čaus, N. N. *On the uniqueness of a solution of the Cauchy problem for a second order equation with variable coefficients* 549
Černeckiĭ, V. A. *On the conformal equivalence of Carleman's boundary value problem to Riemann's boundary value problem on an open contour* 51
Černikov, S. N. *Infinite nonabelian groups with invariance condition for infinite nonabelian subgroups* 1387
Černov, V. G. *Homogeneous distributions and the Radon transform in the space of rectangular matrices over a continuous locally compact disconnected field* 415
Čerskiĭ, Ju. I. (see also Kurganskaja, M. Ja.)
A normally solvable equation of smooth transition 55
Čoban, M. M. *Multivalued mappings and some associated problems* 105
On the theory of p-spaces 1257
Čunihin, S. A. *On nilpotent and supersolvable subgroups of finite groups* 1131
Cvetkova, G. A. See Kreĭn, S. G.
Daĭovič, S. *On optimal processes in linear systems not satisfying a nondegeneracy condition* 608
Darinskiĭ, B. M. See Krasnosel'skiĭ, M. A.
Deev, A. D. *Representation of statistics of discriminant analysis and asymptotic expansions when space dimensions are comparable with sample size* 1547
Dektjarev, I. M. *The general first fundamental theorem of value distribution theory* 961
Dem'janov, V. F. *Seeking a minimax on a bounded set* 517
Finding saddle points on polyhedra 558
Derguzov, V. I. *Solution of an anticanonical equation with periodic coefficients* 834
De-Spiller, D. A. *Equimorphisms and quasi-conformal mappings of the absolute* 1324
Dikovskiĭ, A. Ja. *Languages of bounded active capacity* 748
Dinaburg, E. I. *The relation between topological entropy and metric entropy* 13
Dinic, E. A. (see also Arlazarov, V. L.)
Algorithm for solution of a problem of maximum flow in a network with power estimation 1277
Domšlak, Ju. I. *On the oscillation of solutions of vector differential equations* 839
Donin, I. F. *On analytic Banach spaces and on the space of modules of holomorphic fiberings* 1591
Dragilev, M. M. *On multiple regular bases in a Köthe space* 1012
Dudučava, R. V. *On singular integral operators in a Hölder space with weight* 304
Dybin, V. B. *Normalization of the Wiener-Hopf operator* 437
Efimov, B. A. (see also Vladimirov, D. A.)

Efimov, B. A. and Kuznecov, V. M. *On topological types of dyadic spaces* 1403
Efimov, G. V. *On the representation of entire functions of arbitrary order* 1502
Efremovič, V. A. See Pupko, V. I.
Egorov, V. A. *Some theorems on the strong law of large numbers and the law of the iterated logarithm* 904
Èĭdel′man, S. D. See Kondrat′ev, V. A.
Èĭdel′man, S. D. See Pletneva, T. G.
El′kin, A. G. *On k-resolvable spaces not maximally resolvable* 1452
Emelin, I. V. See Krasnosel′skiĭ, M. A.
Evgrafov, M. A. *On a formula for the representation of the fundamental solution of a differential equation by a functional integral* 474
Ežov, A. M. and Pul′kin, S. P. *An estimate for the solution of the Tricomi problem for a class of equations of mixed type* 1046
Fage, M. K. *On the sweep method* 362
Fardažev, I. A. See Arlazarov, V. L.
Faradžev, I. A. See Kronrod, A. C.
Fediĭ, V. S. *Estimates in $H_{(s)}$ norms and hypoellipticity* 940
Fedorčuk, V. V. *Uniform spaces and perfect irreducible mappings of topological spaces* 818
Fedulova, T. M. *An application of the dispersion method to additive problems involving a bounded set of primes* 366
Filatov, A. N. and Talipova, L. I. *On a variant of averaging in integro-differential equations* 737
Filippov, A. F. See Il′in, V. A.
Filippov, V. V. (see also Lifanov, I. K.)
On bicompacta with noncoinciding inductive dimensions 635
On compacta with unequal dimensions ind *and* dim 687
Finkel′šteĭn, Ju. Ju. *Estimation of the number of iterations for Gomory's all-integer algorithm* 988
Fišman, K. M. *On the convergence of a sequence of continuous linear mappings of analytic spaces* 164
Fomenko, A. T. *Some cases when elements of homotopy groups of homogeneous spaces are realized by totally geodesic spheres* 219
Homological properties of minimal compacta in the multidimensional Plateau problem 587
The multidimensional Plateau problem and singular points of minimal compacta 639
Relaization of cycles in compact symmetric spaces by totally geodesic submanifolds 1583
Frank, L. S. *Coercive boundary-value problems for difference operators* 591
Freĭvald, R. V. *Coding of finite sets and a criterion of completeness up to coding in three-valued logic* 249
Freud, Geza *On weighted approximation by polynomials on the real axis* 370
Frolov, P. A. (see also Lidskiĭ, V. B.)
Topological structure of normally solvable elliptic operators with constant coefficients in the plane 542
Frum-Ketkov, R. L. *On mappings in Hilbert space* 821
Fuks, D. B. See Gel′fand, I. M.
Furman, M. E. *Application of a method of fast multiplication of matrices in the problem of finding the transitive closure of a graph* 1252

Gabasov, R. and Kirillova, F. M. *The maximum principle for optimization of systems with aftereffect* 1311

Gačok, V. P.; Zolotarjuk, A. V. and Jakymiv, Ja. M. *On the regularization of singular operator expressions in quantum field theory* 605

Gadžiev, A. D. See Ibragimov, I. I.

Garg, G. L. *Analog of the Kuratowski-Dugundji theorem for the category of metrizable uniform spaces with uniformly continuous mappings* 1443

Geĭler, V. A. *On continuous selectors in uniform spaces* 1400

Geĭsberg, S. P. *Asymptotic behavior of quasi-analytic functions* 1316

Gel′fand, I. M. (see also Bernšteĭn, I. N.)

Gel′fand, I. M. and Fuks, D. B. *On cohomologies of a Lie algebra of smooth vector fields* ... 268

Gel′fand, I. M.; Graev, M. I. and Ponomarev, V. A. *The classification of the linear representations of the group $SL(2, \mathbf{C})$* 1319

Gel′fand, I. M.; Greav, M. I. and Šapiro, Z. Ja. *A problem of integral geometry connected with a pair of Grassmann manifolds* 892

Gel′fand, S. I. See Bernšteĭn, I. N.

Gerčiu, V. Ja. (see also Kuznecov, A. V.)

Gerčiu, V. Ja. and Kuznecov, A. V. *On finitely axiomatizable superintuitionistic logics* 1654

Geriš, A. and Geriš, V. [Gerisch A. and Gerisch W.] *Pontrjagin's space and convergence of the Bubnov-Galerkin method* 1087

Gerisch, A. = Geriš, A.

Geriš, V. See Geriš, A.

Geronimus, Ja. L. *The order of the degree of precision of Čebyšev's quadrature formula* 70

Gil′derman, Ju. I. *On trajectories of systems with right-hand side of extremal kind* 471

Gluhov, M. M. *On free products and algorithm problems in R-varieties of universal algebras* 957

Gohberg, I. C. and Krupnik, N. Ja. *On symbols of one-dimensional singular integral operators on an open contour* 299

Gol′dberg, V. N. *Discontinuous solutions of nonlinear mixed problems for almost linear hyperbolic systems on the plane* 1497

Gol′denberg, M. M. and Sesekin, N. F. *On groups with invariant subgroups not completely decomposable* 897

Goličev, I. I. *On the discreteness of the spectrum of nonselfadjoint operators* 513

Golovin, V. D. *Duality for coherent analytical sheaves* 432

Golubeva, E. P. *On the representation of large numbers by ternary quadratic forms* 394

Gončarskiĭ, A. V. and Jagola, A. G. *On the solution of integral equations of the form* $\int_a^b K(x, s)dg(s) = u(x)$ 901

Graev, M. I. See Gel′fand, I. M.

Gromov, M. L. *Isometric imbeddings and immersions* 794

Grušin, V. V. See Višik, M. I.

Gulin, A. V. (see also Samarskiĭ, A. A.)

A priori estimates for three-level difference schemes 1447

Gurariĭ, N. I. *Some theorems on bases in Hilbert and Banach spaces* 1042

Gurevič, B. M. *Shift entropy and Markov measures in the path space of a denumerable graph* 744

Gušćin, A. K. and Mihaĭlov, V. P. *On stabilization of the solution of the Cauchy problem for a parabolic equation* 1215

Gutljanskiĭ, V. Ja. *Variational theorems for some classes of analytic functions in doubly-connected regions* 397

Parametric representation of univalent functions 1273

Gvazava, D. K. *On uniqueness of solution of the Tricomi problem for a class of nonlinear equations* 65

Hadžiivanov, N. *Extension of maps into shperes and P. S. Aleksandrov's problem on bicompact condensations* 1253

The n-dimensional cube cannot be divided into a countable union of closed proper subsets whose pairwise intersections are not more than (n – 2)-dimensional 1428

The Hilbert parallelepiped cannot be decomposed into a countable union of closed proper subsets whose pairwise intersections are weakly infinite-dimensional 1676

Haĭkin, Ju. E. *Boundedness of pseudodifferential operators in weight spaces* 100

Hapaev, M. M. *Generalization of Ljapunov's second method and the investigation of some resonance problems* 868

Has minskiĭ, R. Z. See Ibragimov, I. A.

Havin, V. P. See Maz'ja, V. G.

Helemskiĭ, A. Ja. *Description of relatively projective ideals in $C(\Omega)$ algebras* 1680

Hewitt, Edwin. See Èdvin H'juit.

Himčenko, B. N. *On a theorem of M. V. Keldyš and M. A. Lavrent'ev* 595

On the behavior of solutions of elliptic equations near the boundary of a domain of type $A^{(1)}$ 943

H'juit, Èdvin [Hewitt, Edwin] and Makduf, Duza [McDuff, Dusa] *Some pathological maximal ideals in the measure algebra of a compact group* 546

Homič, V. I. *On the complexity of algorithms connected with the realization of logico-arithmetic and propositional formulas* 500

On the complexity of realization of propositional formulas 1637

Ibragimov, I. A. and Has'minskiĭ, R. Z. *Asymptotic behavior of generalized Bayes estimates* 1181

Ibragimov, I. I. *On completeness of a system of analytic functions* 908

Ibragimov, I. I. and Gadžiev, A. D. *On a sequence of linear positive operators* 1092

Ibragimov, I. I. and Nasibov, F. G. *Estimation of the best approximation of a summable function on the real axis by entire functions of finite degree* 1332

Ibragimov, N. H. *Conformal invariance and Huygens' principle* 1153

Il'in, V. A. (see also Alimov, Š. A.)

Il'in, V. A. (see also Arsen'ev, A. A.)

Exact conditions of localization and convergence of Fourier series in fundamental systems of functions of the Beltrami operator 309

Il'in, V. A. and Alimov, Š. A. *Conditions for uniform Riesz summability of Fourier series in arbitrary fundamental systems of functions of the Laplace operator, definitive for classes of Sobolev, Nikol'skiĭ, Besov, Liouville, and Zygmund-Hölder* 913

Il'in, V. A. and Filippov, A. F. *The nature of the spectrum of a selfadjoint extension of the Laplace operator in a bounded region (Fundamental systems of functions with an arbitrary preassigned subsequence of fundamental numbers)* 339

Ioffe, A. D. *B-spaces generated by convex integrands, and multidimensional variation problems* 1600

Iohvidovič, N. Ju. *On the uniqueness of a solution of the Cauchy problem for general linear equations* 842

Ismaĭlov, A. Ja. and Tagieva, M. A. *On the representation of generalized analytic functions by a series of pseudopolynomials* 1605
Ivanov, R. P. See Vasil′ev, F. P.
Jagola, A. G. See Gončarskiĭ, A. V.
Jakubovič, V. A. *Solution of an algebraic problem encountered in control theory* 882
Factorization of symmetric matrix polynomials 1261
On synthesis of optimal controls in a linear differential game with quadratic payoff 1478
Jakymiv, Ja. M. See Gačok, V. P.
Janenko, N. N. and Kvasov, B. I. *An iterative method for the construction of polycubic spline functions* 1643
Judicakaja, P. I. *On the asymptotic behavior of the maximum of Gaussian random fields* 1206
Judovič, V. I. *On stability of forced oscillations of fluid* 1473
On the stability of self-oscillations of a liquid 1543
Kabakov, F. A. *On modelling of pseudo-Boolean algebras by realizability* 562
Intuitionistic deducibility of some realizable formulas of propositional logic 612
Kačurovskiĭ, R. I. *On a class of nonlinear operator equations and some equations of mechanics* 565
On Fredholm theory for nonlinear operator equations 751
Kalašnikov, A. L. and Slugin, S. N. *The Hilbert space of S. L. Sobolev as a variational structure* 1186
Kanovič, M. I. *On the complexity of enumeration and decision of predicates* 17
On the decision complexity of recursively enumerable sets 704
Complexity of resolution of a recuresively enumerable set as a criterion of its universality 1224
Karacuba, A. A. *On sums of characters with primes* 135
The distribution of products of shifted primes in arithmetical progressions 707
Karapetjanc, N. K. and Samko, S. G. *On a class of integral equations of convolution type and its application* 1050
On the index of some classes of integral operators 1229
Karatoprakliev, G. D. *The existence of weak solutions of a boundary value problem for an equation of mixed type in multidimensional regions* 1096
Kasparov, G. G. *On the homotopy invariance of the rational Pontrjagin numbers* 235
Kasymov, K. A. *On the asymptotic behavior of the solution of a problem with initial saltus for a system of quasi-linear equations with common principal part, containing a small parameter* 846
Asymptotic behavior of the solution of a problem with initial jump for second-order hyperbolic equations containing a small parameter 1412
Kaz′min, Ju. A. *On a general problem in the theory of interpolation* 1357
Kenderov, P. *On topological groups* 1284
Kiguradze, I. T. *On a singular boundary value problem for an ordinary nth order differential equation* 755
Kiprijanov, I. A. *On Green's function for some singular elliptic operators* 1362
Boundary value problems for singular elliptic partial differential operators 1416
Kireĭtov, V. R. *Fibered modules and cobordisms* 798
Kirillova, F. M. See Gabasov, R.

Kissin, È. V. *Decomposition of a tensor product of irreducible, maximally degenerate representations of the group of nth order complex matrices with determinant 1* 183
Klebanov, L. B. *Admissibility of the sample mean as an estimate of the translation parameter with polynomial losses* 1234
On a generalization of Craig's theorem 1551
Klimov, G. P. *On the fiducial approach in statistics* 442
Determination of the fiducial distribution for a multidimensional normal population 479
Klimov, V. S. *On second solutions of boundary value problems* 917
Kljackaja, L. M. See Zaĭcev, D. I.
Kobelev, V. V. *Proof of Fermat's last theorem for all prime exponents less than 5500* 188
Kocarev, B. G. *On the problem of an asymptotic formula for the number of solutions of a congruence of Waring type* 758
Kogalovskiĭ, S. R. *Some reduction theorems for higher-order logic* 138
Kolesov, Ju. S. See Burd, V. Š.
Kondrat'ev, V. A. and Èĭdel'man, S. D. *Uniqueness of the solution of Cauchy's problem for linear evolutionary systems with variable coefficients* 239
Konjaev, K. V. *Estimation of the spectral density of a random field from its linear sections* 1366
Korneĭčuk, N. P. *Upper bounds of best approximations on classes of differentiable periodic functions in the C and L matrics* 77
Korotkov, V. B. *Classification and characteristic properties of Carleman operators* 276
On integral operators 1659
Koršunov, A. D. *On the power of some classes of graphs* 1100
Kosickiĭ, M. E. *Nonlinear equations of Hammerstein type with a monotone operator* 25
Koval'čik, I. M. *Linear equations with functional derivatives* 1287
Kozlov, M. V. *On random subsets of vertices of an n-dimensional cube* 21
Kozlova, E. I. *R-operations with a completely deep chain over systems of sets of power τ* .. 964
Kozlovskiĭ, I. M. *On polyhedral representations of metric spaces* 481
Krasnosel'skiĭ, M. A. (see also Zabreĭko, P. P.)
Krasnosel'skii, M. A.; Darinskiĭ, B. M.; Emelin, I. V.; Zabreĭko, P. P.; Lifšic, E. A. and Pokrovskiĭ, A. V. *Hysterant operator* 29
Krasnosel'skiĭ, M. A. and Pokrovakiĭ, A. V. *Vibrostability of solutions of differential equations* 1510
Krasnosel'skiĭ, V. M. *Investigation of the bifurcation of small eigenfunctions in the case of multidimensional degeneration* 1609
Krasovskiĭ, N. N. *On a problem of pursuit* 343
On a differential game of rendezvous 921
Krasovskiĭ, N. N. and Subbotin, A. I. *On the sturcture of differential games* 143
Kreĭn, S. G.; Laptev, G. I. and Cvetkova, G. A. *On Hadamard correctness of the Cauchy problem for the equation of evolution* 763
Krĭvoseev, B. V. and Savin, A. P. *On approximation of functions satisfying a Lipschitz condition by algebraic polynomials* 280
Kronrod, A. S.; Kronrod, V. A. and Faradžev, I. A. *On step selection in the calculation of derivatives* 1291
Kronrod, M. A. See Arlazarov, V. L.
Kronrod, V. A. See Kronrod, A. C.
Krupnik, N. Ja. See Gohberg, I. C.

Krut'ko, P. D. *The problem of observation of nonlinear systems* 445
Krylov, N. V. *On a problem with two free boundaries for an elliptic equation and optimal stopping of a Markov process* 1370
Kučkarov, Ja. H. See Sarymsakov, T. A.
Kulakov, Ju. I. *The geometry of spaces of constant curvature as a special case of the theory of physical structures* 1055
Kulov, R. D. *On embedding theorems for Besov spaces with mixed norm* 1190
Kurganskaja, M. Ja. and Čerskiĭ, Ju. I. *A problem of conjugation of three analytic functions* 1553
Kuržanskiĭ, A. B. *Differential games of approach with constrained phase coordinates* 658
Kušner, G. F. *On a compactification of noncompact symmetric Riemannian spaces* 284
Kutateladze, S. S. *Positive linear Minkowski functionals over convex surfaces* 767
Kuznecov, A. V. (see also Gerčiu, V. Ja.)
Kuznecov, A. V. and Gerčiu, V. Ja. *Superintuitionistic logics and finite approximability* 1614
Kuznecov, V. M. See Efimov, B. A.
Kvasov, B. I. See Janenko, N. N.
Laĭterer, Ju. [J. Leiterer] *Criteria for normal solvability of systems of singular integral equations and Wiener-Hopf equations* 1058
Landis, E. M. *Theorems of Phragmén-Lindelöf type for solutions of elliptic equations of high-order* 851
Laptev, G. I. See Kreĭn, S. G.
Lavrik, A. F. *On $L(1, \chi)$ with real Dirichlet character on sparse sets of values of the modulus of the character* 288
On zeros of periodic Dirichlet functions 802
Leiterer, J. See Laĭterer, Ju.
Lemleĭn, V. G. *Quasi-symmetric conformally Euclidean spaces and a mathematical model of the space-time continuum in the large* 244
Leonov, G. A. *On the necessity of a frequency condition for absolute stability of stationary systems in the critical case of a pair of purely imaginary roots* 1016
Levin, A. Ju. *The repetition of two-person games at long time intervals* 570
Levin, B. V. and Timofeev, N. M. *On sums of multiplicative functions* 1062
Levin, V. L. *On the subdifferential of a composite functional* 1194
Levit, M. V. *Frequency conditions of absolute stochastic stability of automatic control systems with random external force* 1557
Lidskiĭ, V. B. and Frolov, P. A. *The connected components of normally solvable elliptic systems in the plane* 712
Lifanov, I. K. See Pasynkov, B. A.
Lifanov, I. K. and Filippov, V. A. *Two examples in the dimension theory of bicompacta* 573
Lifšic, E. A. See Krasnosel'skiĭ, M. A.
Lifšic, E. A. See Zabreĭko, P. P.
Linnik, Ju. V. and Romanovskiĭ, I. V. *On the theory of sequential estimation* 1196
Litvinceva, Z. K. *On the complexity of some problems for groups and semi-groups* 485
Litvinov, G. L. *Group algebras of analytic functionals and their representations* 191
Ljapunov, A. A. *On covering of A-sets and multiple separability* 199
Ljubeckiĭ, V. A. *The existence of a nonmeasurable set of type A_2 implies the existence of an uncountable set of type CA which does not contain a perfect subset* 1513
